ABSTRACT

This catalogue lists the oceanographic publications received by World Data Center A, Oceanography, from 1 October 1976 through 30 September 1977. It was compiled by the staff of Literature Research Company.

ACKNOWLEDGMENTS

The following staff members of Literature Research Company assisted in the preparation of this catalogue: Richard L. Bullington, Jr., project leader; Christina Nassikas, cataloguing and editing; Averill Laurie and Virginia Moore, cataloguing; Carolyn P. Bullington, editing; Bridget Karten, Robert Kursch, Jr., and Rose Ann Loechler, proofreading; Mary L. Sobczynski, technical typing; Carol M. Sheppard, paste-up artist. Ronald E. Moffatt and Charlotte L. Sazama of WDC-A, Oceanography and Victoria Jones of NOAA, Editorial Branch, provided technical assistance.

INTRODUCTION

The World Data Center system was established in 1957 to collect data from the numerous and widespread observational programs of the International Geophysical Year (IGY) under the principles set forth by the International Council of Scientific Unions (ICSU) and to make such data readily accessible to interested scientists and scholars. The system consists of World Data Center A (WDC-A) located in the U.S.A.; WDC-B located in the U.S.S.R.; and several WDC-C's located in Western Europe, Australia, and Japan. WDC-A is established under the auspices of the U.S. National Academy of Sciences where the Coordination Office is located. WDC-A is divided into seven discipline centers whose addresses are given on pages vi and vii. These centers are located in institutions which, in the opinion of the Academy, can best serve the interests of science because of their data handling capabilities for the appropriate scientific disciplines. WDC-A, Oceanography, is collocated with the National Oceanographic Data Center (NODC) in Washington, D.C.

ICSU first assigned responsibility for the operation of the World Data Centers to its Comite Special de Annee Geophysique Internationale (CSAGI). After completion of the IGY programs, CSAGI's responsibilities were terminated in 1959. ICSU then delegated the responsibility for the operation of the World Data Centers in the post-IGY period to its Comite International de Geophysique (CIG). This function is now discharged by the ICSU Panel on World Data Centers. The framework for continued international exchange of data is set forth in the Third Consolidated Guide to International Data Exchange through the World Data Centers and the Intergovernmental Oceanographic Commission's Manual on International Oceanographic Data Exchange.

Each WDC is open to visitors and guest workers from any country; all data in the centers are accessible to visitors.

Arrangements can be made to borrow from WDC-A, Oceanography, any publication for which duplicates are available at the Center. This temporary use of publications may not exceed a period of one month, not including time of transmittal.

Copies or extracts of noncopyrighted materials may be provided on request, at a cost not to exceed that of reproduction and mailing. Details for obtaining data and information from the Center are given in the Catalogue of Data.

WORLD DATA CENTER A

World Data Center A consists of the Coordination Office and seven subcenters:

World Data Center A.
Coordination Office
National Academy of Sciences
2101 Constitution Avenue, N.W.
Washington, D.C., U.S.A. 20418

Telephone: (202) 389-6478

GLACIOLOGY:

World Data Center A,
Glaciology
Institute of Arctic and
Alpine Research
University of Colorado
Boulder, Colorado, U.S.A. 80309

Telephone: (206) 593-6506

METEOROLOGY (and Nuclear Radiation):

World Data Center A,
Meteorology
National Climatic Center
Federal Building
Asheville, North Carolina, U.S.A.
28801

Telephone: (704) 258-2850

OCEANOGRAPHY:

World Data Center A,
Oceanography
National Oceanic and Atmospheric
Administration
Washington, D.C., U.S.A. 20235

Telephone: (202) 634-7249

ROCKETS AND SATELLITES:

World Data Center A,
Rockets and Satellites
Goddard Space Flight Center
Code 601,
Greenbelt, Maryland
U.S.A. 20771

Telephone: (301) 982-6695

ROTATION OF THE EARTH:

World Data Center A,
Rotation of the Earth
U.S. Naval Observatory
Washington, D.C., U.S.A. 20390

Telephone: (202) 254-4023

GENERAL INFORMATION

Arrangement of the Catalogue

This catalogue lists the publications received by WDC-A, Oceanography, from 1 October 1976 to 30 September 1977. To enhance the usefulness of the catalogue, suitable cross references are provided by means of keyword and author indexes.

The publications listed in the catalogue are grouped by countries of origin. Preceding each publication is an identifying catalogue number. The numbering system is designed after that used in other WDC-A, Oceanography, catalogues. The first two digits identify the originating country. The number assigned to each country is given in the Numerical List of Countries. The next two digits, after the decimal point, identify the contributing institution. The names of the countries and institutions are printed in capital letters at the beginning of each group of references, preceded at the left by their identifying numbers. In some instances, where specific institutions are not identified separately, the institution number is given as ".00." The final three digits following the dash represent the unique number for each document. This document sequence number is assigned in the order in which the publication is catalogued. For example, Argentina is number 01; Servicio de Hidrografia Naval is .01. Thus, the first publication listed in this supplement will have the catalogue number 01.01-009. If a publication contains data that are listed in the Catalogue of Data, that catalogue number is cross referenced in parentheses after the publication information. For example, after publication number 39.01-175 information appears (WDCA-139.8 Q-2) which shows that this publication contains data for catalogue No. 139.8 Q-2 in the Catalogue of Data.

In this Supplement, the articles that appear within some journals are indexed individually following the journal entry. For example, following publication number 14.02-086, the articles included in that publication are numbers 14.02-086.1 and 14.02-086.2. The decimal number is entered beneath the catalogue number. In cataloguing certain journals, articles not relating to the marine sciences are omitted.

In addition to serving as a means of sequencing the publications, the catalogue number constitutes a link between the indexes and the catalogue.

A brief section, which lists miscellaneous journals, reprints, and reports, may follow the last institution listed for a particular country.

Keyword Index

In the Keyword Index, the keywords in every title are placed in alphabetical sequence in capital letters. Below a keyword, all numbers of the documents in the catalogue in which that word appears are listed.

Author Index

The Author Index gives in alphabetical sequence the names of the authors of the publications listed in the catalogue. The corresponding catalogue number(s) follows the name.

13.24-004 ANNALES HYDROGRAPHIQUES 4(1), 1976.
Service Hydrographique et Oceanographique de la Marine, Paris, No. 743, Serie 5, Vol. 4, No. 1. 96 p.

13.24-004 .1 Le Provost, C.
ETUDE DES MAREES DANS LES MERS LITTORALES. I. ANALYSE THEORIQUE DE LEUR STRUCTURE SPECTRALE.
STUDY OF THE TIDES IN THE LITTORAL SEA. I. THEORETICAL ANALYSIS OF THEIR SPECTRAL STRUCTURE.
Its p. 7-18.

13.24-004 .2 Le Provost, C.
ETUDE DES MAREES DANS LES MERS LITTORALES. II. DETERMINATION DE LEURS CARACTERISTIQUES A L'AIDE D'UN MODELE REDUIT, APPLICATION A LA MANCHE.
STUDY OF THE TIDES IN THE LITTORAL SEA. II. DETERMINATION OF THEIR CHARACTERISTICS BY MEANS OF A SCALED-DOWN MODEL. APPLICATION TO THE CHANNEL.
Its p. 19-31.

13.24-004 .3 Salomon, J.
MODELE MATHEMATIQUE DE LA PROPAGATION DE LA MAREE DANS L'ESTUAIRE DE LA LOIRE ET LA LOIRE MARITIME.
MATHEMATICAL MODEL ON THE PROPAGATION OF THE TIDE IN AN ESTUARY OF THE LOIRE AND THE MARITIME LOIRE.
Its p. 33-49.

13.24-004 .4 Arhan, M. Gouriten, Y.
RELATIONS ENTRE LES VARIATIONS DE PRESSION AU FOND ET LES COURANTS PARTICULAIRES DANS LA HOULE COTIERE PROCHE DU DEFERLEMENT.
RELATIONSHIP BETWEEN THE VARIATIONS OF PRESSURE AT THE BOTTOM AND THE SPECIFIC CURRENTS IN A COASTAL SWELL NEAR BREAKING.
Its p. 59-64.

13.24-004 .5 Cavanie, A. Ezraty, R.
ETUDE STATISTIQUE DE LA HOULE LITTORALE PROCHE DU DEFERLEMENT.
STATISTICAL STUDY OF THE LITTORAL SWELL NEAR BREAKING.
Its p. 65-73.

13.24-004 .6 Barusseau, J. Long, B.
AMBIGUITE DE LA NOTION DE SABLES ACTUELS ET RELIQUES. EXEMPLE DE LA COTE NORD-OUEST DE L'ILE DE RE (GOLFE DE GASCOGNE).
AMBIGUITY OF THE CONCEPT REGARDING SANDS OF TODAY AND OF THE PAST. EXAMPLES FROM THE NORTHWEST COAST OF THE ILE DE RE (BAY OF BISCAY).
Its p. 75-81.

13.24-005 ANNALES HYDROGRAPHIQUES 4(2), 1976.
Service Hydrographique et Oceanographique de la Marine, Paris, No. 744, Serie 5, Vol. 4, No. 2. 73 p.

13.24-005 .1 Chanu, J.
SUR QUELQUES NOTIONS DE THERMODYNAMIQUE MODERNE UTILES AUX OCEANOGRAPHES.
SEVERAL MODERN THERMODYNAMIC CONCEPTS USEFUL TO OCEANOGRAPHERS.
Its p. 5-17.

13.24-005 .2 Duboul-Razavet, C. Longuemard, J. Sirieys, P.
RESISTANCE AU CISAILLEMENT DE SEDIMENTS MARINS DE TROIS SITES COTIERS (BAIE DE BANYULS, LARGE DU DELTA DU RHONE, RADE DE BREST).
RESISTANCE TO SHEARING OF MARINE SEDIMENTS AT THREE COASTAL SITES (BAY OF BANYULS, THE OPEN SEA OF THE RHONE DELTA, AND THE ROADSTEAD OF BREST).
Its p. 19-29.

13.24-005 .3 EXTENSION DES EAUX FLUVIALES DANS LE GOLFE DU LION.
EXTENSION OF THE FLUVIAL WATERS INTO THE GULF OF LION.
Its p. 31-42.

13.24-005 .4 Maze, R.
COMPARAISON DES PETITS MOUVEMENTS D'UNE COUCHE STRATIFIEE DE L'OCEAN ET D'UNE COUCHE STABLE DE L'ATMOSPHERE AVEC LA THEORIE DES ONDES INTERNES.
COMPARISON OF THE SMALL MOVEMENTS OF A STRATIFIED OCEAN LAYER AND A STABLE ATMOSPHERIC LAYER WITH THE THEORY OF INTERNAL WAVES.
Its p. 43-52.

13.24-005 .5 Donguy, J. Henin, C.
RELATIONS ENTRE LES PRECIPITATIONS ET LA SALINITE DE SURFACE DANS L'OCEAN PACIFIQUE TROPICAL SUD-OUEST, BASEES SUR EN ENCHANTILLONNAGE DE SURFACE DE 1956 A 1973.
RELATIONSHIP BETWEEN PRECIPITATION AND SALINITY OF THE SURFACE IN THE TROPICAL SOUTHWEST PACIFIC OCEAN, BASED ON SAMPLES FROM THE SURFACE DURING 1956-1973.
Its p. 53-59.

13.24-006 ANNALES HYDROGRAPHIQUES 4(3), 1976.
Service Hydrographiques et Oceanographique de la Marine, Paris, No. 745, Serie 5, Vol. 4, No. 3. 109 p.

13.24-007 ANNALES HYDROGRAPHIQUES 5(1), 1977.
Service Hydrographique et Oceanographique de la Marine, Paris, No. 746, Serie 5, Vol. 5, No. 1. 258 p.

13.24-007 .1 Germain, J. Gulli, L.
PASSAGE D'UN ONDE SUR UNE BARRIERE VERTICALE MINCE IMMERGEE EN EAU PEU PROFONDE.
PASSAGE OF A WAVE THROUGH A THIN VERTICAL BARRIER IMMERSED IN NOT VERY DEEP WATER.
Its p. 7-11.

13.24-007 .2 Temperville, A.
INTERACTIONS NON LINEAIRES DANS LA THEORIE DE L'EAU PEU PROFONDE.
NONLINEAR INTERACTIONS IN THE THEORY OF NOT VERY DEEP WATER.
Its p. 13-16.

13.24-007 .3 Bonnefille, R.
ASPECT ENERGETIQUE DES ONDES-MAREES.
ENERGY ASPECTS OF WAVES AND TIDES.
Its p. 17-22.

13.24-007 .4 Kravtchenko, J. Le Provost, C.
SUR LA THEORIE SPECTRALE DES MAREES LITTORALES.
THE SPECTRAL THEORY OF LITTORAL TIDES.
Its p. 23-46.

13.24-007 .5 Chabert D'Hieres, G. Le Provost, C.
SYNTHESE SUR LA DETERMINATION DES PRINCIPALES COMPOSANTES DE LA MAREE DANS LA MANCHE, RESOLUE A L'AIDE DU MODELE REDUIT DE GRENOBLE.
SYNTHESIS ON THE DETERMINATION OF PRINCIPAL COMPONENTS OF THE TIDE IN THE CHANNEL, RESOLVED BY MEANS OF A SCALED-DOWN MODEL OF GRENOBLE.
Its p. 47-55.

13.24-007 .6 Bertrand, B. Le Provost, C.
ROLE DU FROTTEMENT DANS LE GENERATION DES COURANTS MOYENS DANS LES MERS A MAREES LITTORALES.
THE ROLE OF FRICTION IN THE GENERATION OF MODERATE CURRENTS IN THE SEAS HAVING LITTORAL TIDES.
Its p. 57-63.

13.24-007 .7 Crepon, M.
NIVEAU MOYEN, PRESSION ATMOSPHERIQUE ET AJUSTEMENT GEOSTROPHIQUE.
MEDIAN LEVEL, ATMOSPHERIC PRESSURE AND GEOSTROPHIC ADJUSTMENT.
Its p. 65-74.
